

Premium Multimedia Localization Services

(JBI Studios)

vs.

Rapid Multimedia Services

(JBI Connect)

JBI Connect is designed as a quick and cost-effective multimedia localization portal. It should not be used for complex projects, or projects that require acting, multiple voices, on-screen titles replacement, or any service other than the ones provided by JBI Connect. Premium and marketing content, commercial spots, Flash/Captivate/Articulate Storyline eLearning courses, and lip-sync dubbing projects should all go to JBI Studios.
